

# IN ALL DIRECTIONS

A getting lost path meant as adventure

by Stefania Migliorati

Materials for the walk:

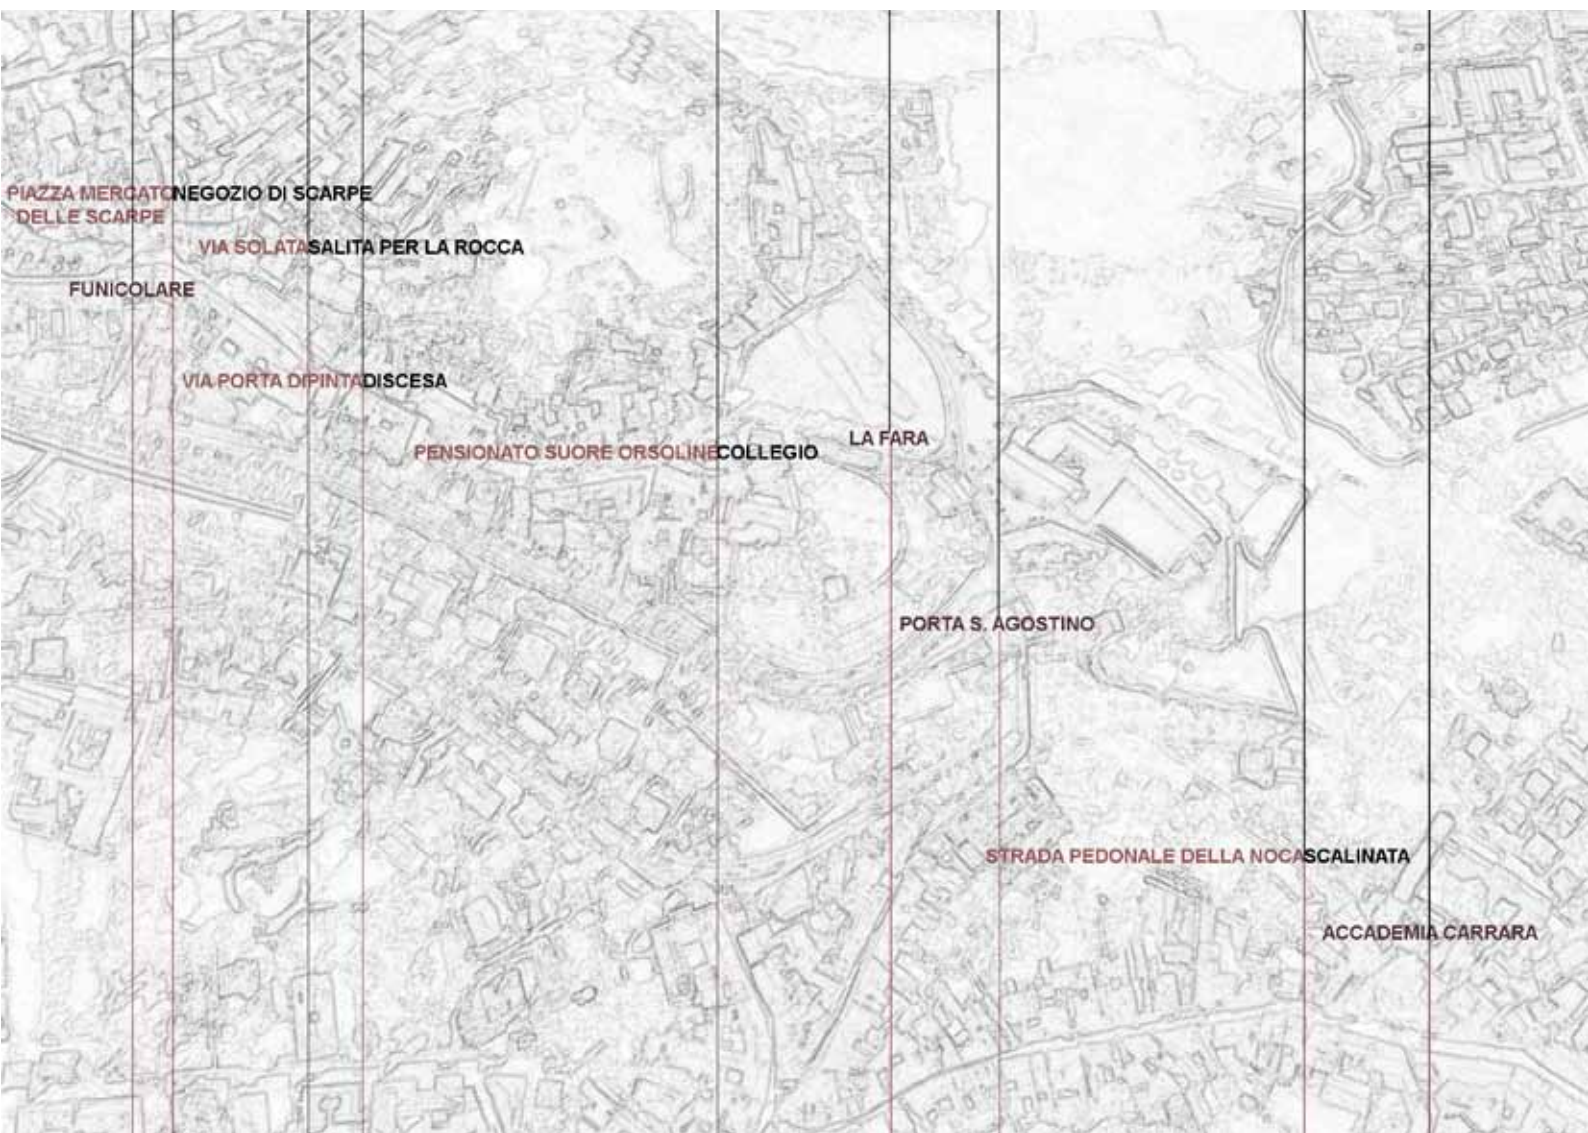

directions

blank paper

pen/pencil

camera/mobile phone

cable to upload the images on the computer

## DIRECTIONS

During the exercises, document your route (both by drawing a map  and using a camera )

the points of you form along the way as well as the people you meet and interact with.

At the end of the walk, we will upload everything on a computer and online at the facebook page of the walk to share our perceptions with others who have decided to participate to this project.

Note: to be on time, remember that we will meet at 16:00 at Galerie Wedding (see paragraph 8). It's therefore advised at 15,45 to suspend the exercises and to move towards the gallery.

### Have a nice walk!

#### 1. Start a map (defining a center):

mark your starting point on a sheet of white paper and then take the street to your right.

#### 2. Measure space using your own body (relationship between your body and your environment):

**start** walking and count off 50 steps in any direction you like. Mark the starting point and end point on your map.

#### 3. Explore (get yourself lost):

take the first street you have near walked down before until you find something or someone that surprises you. Document it.

#### 4. Intervene (to get involved):

during your walk, build a pile of any height from 1 cm to infinity using materilas you find along the way.

#### 5. Interact (the local mind):

continue along the route and take first street you find on the left. Write down the name of the street, enter a bar (or other business) and ask the bartender if they know the origin of the street name or nickname of people living in the neighborhood.

#### 7. Photograph your map.

#### 8. Join Galerie Wedding, Müllerstraße 146/147, 13353 Berlin. Ask directions to somebody if you don't know the way. I'll meet you there!
